

# UPDATE FROM THE JUDGES OFFICE COVID-19

June 26, 2020

Foard County had its first positive confirmed case of Covid-19 reported to this County. This individual is not a permanent resident of Foard County although he does work within the County. Others that have been in contact with this individual have been tested. County officials will be waiting on the results from these testing. These next few weeks will determine the severity of this exposure in Foard County so please, if you feel any kind of symptoms, such as high fever, respiratory problems or fatigue, please STAY HOME and contact your doctor or clinic and follow their protocols. Please take all precautions needed as you leave your home. Continue using facial coverings when you are out in public, do personal hygiene, maintain social distancing, and if all possible STAY HOME. This COVID 19 will be critical to this community if protocols and guidelines are not followed. Let us continue to follow our sanitizing guidelines and care for our most vulnerable neighbors while trying to “reduce the spread.” We will always be stronger together. May God bless us and protect us. Let us always choose to serve Gods will in all we do. In Jesus name-amen.

Respectfully

Foard County Judge and Commissioners
