

UPDATE FROM THE JUDGES OFFICE
CARES RELIEF FUNDS

September 10, 2020

Through TDEM(Texas Dept of Emergency Management) this department has given the County, City, and also School Districts an opportunity to apply for CRF Funds (Cares Relief Funds.) These funds can be used for any COVID-19 related expenditures to help our community. This is based on County and City population and paid \$55.00 per capita. Foard County has a population of total 1155 but this is broken down by city population which is 858 x \$55.00 per capita which qualifies the City for a total of \$47,190.00 and the County based on 297 x \$55.00 per capita which qualifies the County for a total of \$16,335.00. The County and City has been allocated 20% of these funds and can request the remaining funds if we choose to. The County and City will be using these CRF Funds to put back into our Community. This is one of the prime examples on why it is so important to fill out the Census form. This is based on our total head count. May God always bless and protect Foard County.

Respectfully.

County Judge and Commissioners
