

UPDATE FROM THE JUDGES OFFICE

COVID-19

October 22, 2020

As of the last update we had a significant increase of confirmed COVID-19 in our County from our Nursing home and public sector. I am glad to report that we have had a significant decrease in our County. As of today, we have 8 confirmed cases in the County, Nursing Home and public sector combined. We would like to say "Thank You" to our nursing home, Brenda Allen, the Administrator and staff for their exceptional job of fighting this virus, and to you, the public, for following the protocols the CDC has put in place. We will continue to keep our community safe if we all do our part in following the CDC protocols. I will be capable of re-applying for the "Attestation Form" which will exempt the County from the GA-29 Executive Order from wearing face covering in local business after a 14 day waiting period and having less than 30 confirmed new cases in the County. With winter fast approaching, this means the heating of building and homes and more people confined in closed spaces. We need to continue all the safety precautions as much as possible, wearing face coverings and limiting social gatherings as much as possible inside. I know this is hard and we all want this to be over, but everyone needs to continue the safety protocols for our most vulnerable and to keeps our students in our schools. Please be mindful of this and let us all do our part.

"MAY GOD CONTINUE TO BLESS AND PROTECT FOARD COUNTY."

IN JESUS NAME, WE PRAY

AMEN

Foard County Judge and Commissioners
