

FOARD COUNTY COVID-19

UPDATES FROM THE JUDGES OFFICE

I want each of you to know what updates I receive weekly from Federal and State levels. Daily reports are received from Lance Liggett, who is our "District Coordinator" for the Texas Division of Emergency Management, also weekly updates are provided from U.S. Department of Homeland Security and CDC. I also receive teleconference from "DSHS" three days a week as well (Mon.,Wed.,Fri.). Each Tuesday, the Judge receives a teleconference from our Governor from 2pm to 4pm. In his last conference call with our Governor, the Governor's experts predicted the State of Texas is expected to peak the last week of April through the first week in May. With that being said, it is "**very important**" for the people of Foard County to continue to do their part for the next three weeks., which is "**STAY AT HOME**" as much as possible, only out for essential travel. Our Community must continue practicing good "social distancing" during this time! The CDC has also recommended wearing face mask when going into all businesses for more protection. Our Community has done a "great job" responding like we should to this pandemic. "**THANK YOU FOR BEING RESPONSIBLE CITIZENS**", "**STAY SAFE**"

Respectfully,

Foard County Judge and Commissioners
