

UPDATE FROM THE JUDGES OFFICE

COVID-1

November 13, 2020

Since last update, we have had a significant increase of 30+ confirmed Covid-19 cases in the County from our public sector and our school with some still pending. With the local cases increasing, we need to, more than ever, follow the safety protocols put out by the CDC which are staying home if you are sick or have been confirmed positive with Covid-19. Contact your doctor if you have been exposed and follow the same protocols set by the CDC- quarantining the recommended time. This is so important. We need to limit our social gatherings as much as possible. This will control this virus more than anything. Continue to wear a face covering or mask when in the public, keeping six foot social distancing and sanitizing your hands regularly. I know you have heard this over and over, but it is so important for all of us to understand the difference this makes by doing these protocols. We all have love ones that are “Front Line workers” in the medical field and first responders that are risking their lives. This is reason enough for us to do our part for them and our most vulnerable. The more we do on following these protocols, the sooner they go home to their families. Let us “stay diligent” and do our part to keep our community safe. Let us “Thank God” for hearing our prayers each and everyday for blessing and protecting Foard County.

In Jesus name-Amen

Judge and County Commissioners
