

JUDGES UPDATE

COVID-19

November 20, 2020

Since our last update we have lost our first resident to Covid-19 virus. I was praying this was something I would never need to report in our updates but sadly it has happened, this is "real!" We need to keep this family in our prayers, asking for Gods comfort, strength, love and grace.

As of today, we have 34 active Covid-19 cases and others pending. I also want to let you know our region and others across the state are getting in an "Urgent Crisis." Our local hospitals are getting full, even in the larger cities as they are all over running with Covid-19 patients. We are getting to a point that our local hospitals have no where to transfer patients. We are at a very serious point and need to do all we can to protect our Community. I am asking each of you to **please follow the protocols put out by the CDC.** The main two will and can make all the difference-wearing face coverings when in the public and restrict or limit all social gatherings. We are still under the Governor's GA-29 Executive Order of mandatory face coverings going into all businesses. I know no one likes anyone telling us what we can or cannot do as I completely understand, so I am just asking, for the sake of our Community, please show respect to our businesses and each other. If you have underlying conditions, just let them know. Let's all do our part to keep our community safe. May God always bless and protect Foard County.

In Jesus Name,

AMEN

Foard County Judge and Commissioners
